ABOUT US

INTERIA POLYPACK LLP is a trusted name in the world of innovative packaging solutions. We specialize in the manufacturing of PP Corrugated Sheets, PP Corrugated Boxes, and Stretch Film, tailored to meet the evolving demands of industries across India. Driven by a passion for quality and sustainability, our products are designed to offer maximum durability, lightweight handling, and eco-friendly performance — making them ideal for a wide range of sectors, from retail and manufacturing to logistics and warehousing.

Our renowned Versatile X sheets serve as the go-to choice for a multitude of stationery items such as notebooks, folders, and office organizers. These sheets are versatile and can be printed using digital, offset, litho, and screen-printing methods, providing a durable and tear-resistant alternative to traditional paper. Their enhanced resistance to tearing, water, and chemicals makes them an ideal solution for long-lasting stationery products. We specialize in manufacturing plastic stretch films, offering superior quality and exceptional performance. Our plastic stretch films are produced using state-of-the-art machinery and high-quality polyethylene materials. PP sheet ranging from 200 gsm to 5000 gsm and 2 mm to 10 mm pp sheet our products come in a diverse array of colors and rigidities, offering embossing options to cater to specific requirements.

INTERIA POLYPACK LLP is one of the leading manufacturers and suppliers of Plastic Stretch Film And PP Corrugated Sheet in the world. With a presence in countries such as US, Singapore, Australia, Germany, Canada, New Zealand, United Kingdom, Ireland, Scotland and Norway, INTERIA Polypack has established itself as a trusted provider of high-quality Plastic Stretch Film And PP Corrugated Sheets.

At Interia Polypack, we don't just provide packaging — we deliver protection, innovation, and peace of mind for your products.

USE

- ◆ Used For : Re-usable and returnable packaging as they are flexible, lightweight, and safe to handle and can be folded multiple times.

ATTRIBUTE

- ◆ Lightweight but can hold voluminous products.
- ◆ Ultrasonic welding and plastic rivets used, with no sharp edges or corners.
- ◆ Smooth Surface, Easily Cleaned & Environmental Friendly Can be supplied with partition.
- ◆ Hygienic, No Outgassing.
- ◆ Durable for many trips / repeated use.

FEATURES

- ◆ Light Weight/Strong. » PP Sheets are Light in Weight & Strong in Durability.
- ◆ Water/Chemical Proof. » PP Sheets are Water Proof & Chemical Resistant.
- ◆ Impact/Tearing Resistant » PP Sheets are High Impact & Tearing Resistant.
- ◆ Highly Functional » PP Sheets are Multi Functional.
- ◆ Termite/Vermin Proof. » PP Sheets are Termite & Vermin Proof.
- ◆ Puncture Resistant. » PP Sheets are Puncture Resistant.
- ◆ Finest Surface. » PP Sheets have Fine Surface.
- ◆ High Insulation » PP Sheets are Highly Insulated.

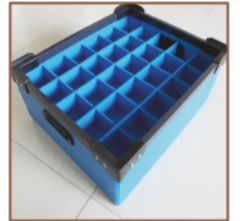

APPLICATION

: PP Corrugated Sheets Find Diverse Applications Across Multiple Industries :

◆ Industrial Packaging :

Creating durable and reusable boxes, containers, and dividers for electronics, automotive and more.

◆ Agricultural Packaging :

Safeguarding agricultural products during transport and storage to ensure freshness and quality. Employed in greenhouses, tree guards, and product packaging.

◆ Bevarage & Food Industry :

There are different kind of polypropylene laves pad, according to the various logistic and palletizing requirements. Our layer pad is the classic and best known polypropylene corrugated layer pad, rounded corners in thicknesses of 2mm to 10mm and GSM according to the required application. Utilized for packaging fruits and vegetables effectively.

◆ Textile & Yarn Packaging :

Safeguarding agricultural products during transport and storage to ensure freshness and quality. Employed in greenhouses, tree guards, and product packaging.

APPLICATION

◆ Construction :

- Floor Protection** : Offering Temporary Protection During Construction Or Renovation.
- Temporary Walls** : Ideal For Creating Temporary Barriers.

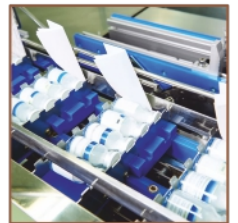

◆ Signage and Displays :

- Outdoor Signs** : Popular for Lawn, Construction site and Real Estate signs due to weather resistance.
- Promotional Displays** : Lightweight and Printable for Temporary or Permanent Displays.

◆ Medical Industry :

Ideal For Chemical-resistant Applications Like Syringes And Specimen Containers.

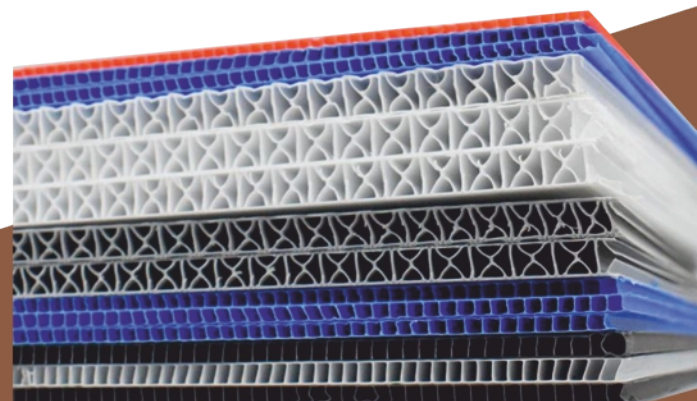

◆ Other Applications :

- Automotive Industry** : Used In Components, Waste Storage, And Protecting Goods. Creating Durable Boxes, Folders, And Binders.
- Stationery** : Serving As Dividers In Various Applications Such As Bottle Dividers.
- Separators** : And Pallet Separators.

PP Sheet Regular Range :

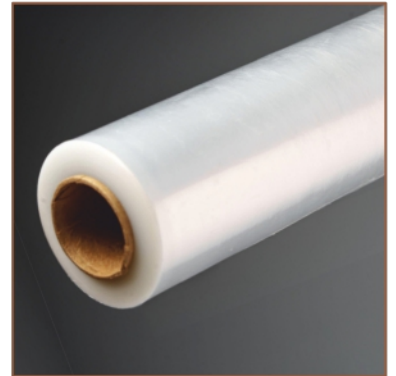

- Thickness** : 2mm to 10mm, 12mm
- Width** : 2440mm or as per Request
- Colours** : Yellow, White, Blue, Gray, Green, Red, Black, Orange & As per Order

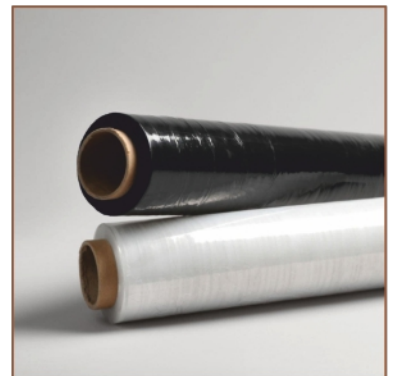

LDPE STRETCH FILM

- ◆ Cast Stretch Films protect your products from scratches, abrasions, stains and other damage and ensure that they reach your customers as good as new. Our Cast Stretch Films can be used for variety of loads and can help create load securization for your goods in transit. Our company uses special & high quality polymers to ensure the products are stable and of high quality to ensure better yield to your customers. Stretch Films are 3 layer cast films imparting excellent film properties like high Puncture Resistance, Elongation, Uniform thickness, High Dart impact strength and good clarity.

BENEFITS OF CAST STRETCH FILMS

- ◆ Protection from moisture, dirt & abrasion : Stretch film protects against these elements, safeguarding the goods it wraps.
- ◆ Reliable performances The security associated and with the holding performance, load retention and protection is readily evident.
- ◆ Scan-through optics The superior appearance and clarity of cast stretch film enables codes to be quickly scanned and read while protecting labels and codes printed underneath the film.
- ◆ Ease of removal Cast stretch film only clings to itself and not surface; it does not produce clinging noise, thus making its removal fast, safe, clean and easy.

MACHINE GRADE

- ◆ This is our best selling general purpose cast co-extruded stretch film for machine applications. This versatile, competitively priced stretch film's broad specifications provide for excellent performance when wrapping most loads. With stretch percentage between 250-300%, it provides for high levels of strength, puncture resistance and cling. Clear optics and quiet unwind make this film the top choice for the widest range of applications.

MACHINE ROLL

- ◆ Superior load retention to reduce shifting and movement. Excellent puncture resistance with better protection and clearer film. Suitable for conventional and power pre stretch machine wrapping of palletized goods.

Hand Roll

- ◆ Lightweight and easy to use. Manual wrapping of palletized wood, bricks, paper and other industry products.

ADVANTAGES OF STRETCH FILM

- ◆ Made from high quality and high technology LLDPE Resins.
- ◆ Manufactured in High Speed High Quality.
- ◆ Due to Stable and Flat film with just 1 micron of variation in Thickness, Thinner films can be used to reduce cost per pallet.
- ◆ Identical Net Weight of all rolls so easy for stock taking and consumption calculation.
- ◆ Offers Cost reduction possibilities due to lower grams per Sq.
